

Relive the Moment

T.photo™ 720

Digital Photo Frame

Showcase your entire photo collection for everyone to enjoy with Transcend's T.photo 720 digital photo frame. Just plug in a memory card from your digital camera to instantly display all of your pictures and videos, one after another on the T.photo's crystal clear 7" high-resolution screen.

With two full gigabytes of internal storage space, you don't even need a memory card to use the T.photo. You can even preload it with photos to make the perfect gift for relatives.

More than just a picture frame, the T.photo can also be used as an FM radio, alarm clock, MP3 music player, video playback station, or desktop calendar.

2GB of internal memory
